

Litoscope Instructions

- 1) If needed, please login via Virtual Private Network (VPN) to a Library which has a subscription to Web of Science e.g. <https://library.maastrichtuniversity.nl/database/web/>
- 2) Use Web of Science, Core Collection Database for your search
- 3) After you completed your search , download the list of publications (500 at once WoS Limit) with record content (Full record and cited references) and File Format (Tab-delimited (win))

The 'Send to File' dialog box has a title bar with a close button (X). It contains three sections: 'Number of Records' with radio buttons for 'All records on page' and 'Records' (selected), and input fields for '1' and '500'; 'Record Content' with a dropdown menu set to 'Full Record and Cited References'; and 'File Format' with a dropdown menu set to 'Tab-delimited (Win)'. At the bottom are 'Send' and 'Cancel' buttons.

- 4) If you have more than 500 publications, continue with separate downloads:

The 'Send to File' dialog box is similar to the first one, but the 'Records' radio button is selected, and the input fields show '501' and '1000'. The 'Record Content' and 'File Format' settings remain the same, as do the 'Send' and 'Cancel' buttons.

- 5) Once you downloaded all publications in different text files (savedrecs, meaning saved records), you have to merge these files into one file, by opening them up in an MS Excel file.

Text Import Wizard - Step 1 of 3

The Text Wizard has determined that your data is Delimited.
If this is correct, choose Next, or choose the data type that best describes your data.

Original data type

Choose the file type that best describes your data:

☒ **Delimited** - Characters such as commas or tabs separate each field.

☐ **Fixed width** - Fields are aligned in columns with spaces between each field.

Start import at row: File origin:

Preview of file C:\Users\turkeli\Desktop\MDR Literature\savedrecs.txt.

- 6) After opening up your file, and integrating your files in one MS Excel file, you should add ID columns to the leftmost column, and check whether all the publications are included in your MS excel sheet, if so, you can continue with copying all the material by selecting all and pasting them all at once into the LITOSCOPE ACCELERATOR LI-A file.
- 7) Please refer to the first page of LITOSCOPE ACCELERATOR LI-A for further instructions
